2.Qualification requirements for implementing government procurement policies:

Contract Package 1 (Laparoscopic Unit Procurement Project): None. This project is not specially intended for small- and medium- sized enterprises.

Contract Package 2 (Procurement Project of Color Doppler Ultrasound Diagnostic System (Whole- body Machine) and Arthroscopic Surgical System): None. This project is not specially intended for small- and medium- sized enterprises.

1.Specific qualification requirements for this project:

Specific Qualification Requirements for Contract Package 1 (Laparoscopic Unit Procurement Project)

1.Suppliers included in the lists of dishonest persons subject to enforcement, major tax- related dishonest subjects, and records of serious illegal acts in government procurement on the Credit China website (www.creditchina.gov.cn) and the China Government Procurement Network (www.ccgp.gov.cn) prior to the deadline for submission of bidding documents shall not participate in the bidding.

2.Suppliers shall authorize legal personnel to participate in the whole bidding process. Where the legal representative (person- in- charge of the entity) participates in the bidding directly, the ID card of the legal representative (person- in- charge of the entity) shall be provided, and its information shall be consistent with that on the business license. Where an authorized representative of the legal representative (person- in- charge of the entity) participates in the bidding, the power- of- attorney issued by the legal representative (person- in- charge of the entity), the ID card of the authorized representative, and proof of employment of the authorized representative by the supplier (payment certificate of endowment insurance for the authorized representative shall be provided) shall be submitted.

3.If the bid- involved products fall under Class II medical device administration, the bidder shall provide the Filing Certificate for Class II Medical Device Business (the bid- involved products shall be within its business scope). If the bid- involved products fall under Class III medical device administration, the

bidder shall provide the Medical Device Business License (the bid- involved products shall be within its business scope). If the bidder is a manufacturer, it shall additionally provide the Medical Device Production License (the bid- involved products shall be within its production scope).

4.For bid- involved products within the scope of medical device administration, the Medical Device Registration Certificate shall be provided.

5.Bidders shall not fall under any of the following circumstances: (1) Different bidders with the same person- in- charge or under direct holding or management relations shall not participate in the procurement activities for the same contract package. (2) Bidders that have provided overall design, specification formulation, project management, supervision, inspection or testing services for this project shall not participate in other procurement activities of the project.

6.Procurement documents shall be obtained from the procurement agency. Suppliers failing to obtain procurement documents from the procurement agency shall be deemed to have submitted invalid responses.

Specific Qualification Requirements for Contract Package 2 (Procurement Project of Color Doppler Ultrasound Diagnostic System (Whole- body Machine) and Arthroscopic Surgical System)

1.Suppliers included in the lists of dishonest persons subject to enforcement, major tax- related dishonest subjects, and records of serious illegal acts in government procurement on the Credit China website (www.creditchina.gov.cn) and the China Government Procurement Network (www.ccgp.gov.cn) prior to the deadline for submission of bidding documents shall not participate in the bidding.

2.Suppliers shall authorize legal personnel to participate in the whole bidding process. Where the legal representative (person- in- charge of the entity) participates in the bidding directly, the ID card of the legal representative (person- in- charge of the entity) shall be provided, and its information shall be consistent with that on the business license. Where an authorized representative of the legal representative (person- in- charge of the entity) participates in the bidding, the power- of- attorney issued by the legal representative (person- in- charge of the entity), the ID card of the authorized representative, and proof of employment of the authorized representative by the supplier (payment certificate of endowment insurance for the authorized representative shall be provided) shall be submitted.

3.If the bid- involved products fall under Class II medical device administration, the bidder shall provide the Filing Certificate for Class II Medical Device Business (the bid- involved products shall be within its business scope). If the bid- involved products fall under Class III medical device administration, the bidder shall provide the Medical Device Business License (the bid- involved products shall be within its business scope). If the bidder is a manufacturer, it shall additionally provide the Medical Device Production License (the bid- involved products shall be within its production scope).

4.For bid- involved products within the scope of medical device administration, the Medical Device Registration Certificate shall be provided.

5.Bidders shall not fall under any of the following circumstances: (1) Different bidders with the same person- in- charge or under direct holding or management relations shall not participate in the procurement activities for the same contract

package. (2) Bidders that have provided overall design, specification formulation, project management, supervision, inspection or testing services for this project shall not participate in other procurement activities of the project.

6.Procurement documents shall be obtained from the procurement agency. Suppliers failing to obtain procurement documents from the procurement agency shall be deemed to have submitted invalid responses.
