II. Eligibility Requirements for Applicants:

1. Applicants shall satisfy the requirements of Article 22 of the Government Procurement Law of the People's Republic of China;

2. Eligibility requirements for implementing government procurement policies:
The requirements for implementing government procurement policies for Contract Package 1 (Digital Subtraction Angiography (DSA) Equipment Procurement Project) are as follows: This project is not reserved exclusively for small and medium-sized enterprises.

3. Project-specific eligibility requirements:

The specific eligibility requirements for Contract Package 1 (Digital Subtraction Angiography (DSA) Equipment Procurement Project) are as follows:

(1) A legal person, other organization, or natural person capable of independently assuming civil liability. A valid business license bearing a Unified Social Credit Code shall be provided (public institutions shall provide a Public Institution Legal Person Certificate; natural persons shall provide an identity document);

(2) Proof of financial standing: The supplier shall provide its complete audited financial report for 2025 (the audit report must include the verification code assigned by the Unified Supervision Platform for the Certified Public Accountant Profession at <https://acc.mof.gov.cn>). If less than one year has elapsed between establishment and the deadline for submitting bid documents, the supplier may provide a balance sheet for any period after establishment, or a bank credit certificate issued within the three months preceding bid opening;

(3) A written statement confirming possession of the equipment and professional technical capabilities necessary to perform the contract;

(4) Proof of tax payment: Provide supporting documentation for lawful tax payment for any period since January 2026 (inclusive), with the relevant period determined by the tax period to which the payment pertains. The documentation shall bear the official seal or

business-specific seal of the tax authority or collecting agency. Suppliers legally exempt from tax or not required to pay tax shall provide the corresponding supporting documents;

(5) Proof of payment of social security contributions: Provide a social security contribution receipt or a certificate of social insurance enrollment and contribution status issued by the social security authority for any period since January 2026 (inclusive). Suppliers not legally required to pay social security contributions shall provide the relevant supporting documents;

(6) A written declaration that the supplier has no record of major violations of law in its business activities during the three years preceding participation in the procurement activity;

(7) The supplier must not be listed on the Credit China website as a judgment defaulter or as an entity responsible for serious tax violations, and must not be listed on the China Government Procurement Network as having committed serious illegal or dishonest acts in government procurement;

(8) Where the bidder is represented by a person other than its legal representative, a power of attorney from the legal representative shall be provided. If the legal representative participates in the tender, only the legal representative's identity document is required;

(9) A supplier acting as an agent shall provide a Medical Device Operation License (or Medical Device Operation Filing Certificate) and the manufacturer's Medical Device Manufacturing License (or Medical Device Manufacturing Filing Certificate). A supplier that is the manufacturer shall provide a Medical Device Manufacturing License (or Medical Device Manufacturing Filing Certificate). If the offered product is regulated as a medical device, a Medical Device Registration Certificate or Medical Device Filing Certificate shall be provided;

(10) If the supplier is the product manufacturer, it shall provide a valid Radiation Safety License issued by the competent national administrative authority. If the supplier is a product distributor, it shall provide its own valid Radiation Safety License issued by the competent national administrative authority, as well as the product manufacturer's valid Radiation Safety License issued by the competent national administrative authority. If the

offered product has obtained a radiation exemption filing certificate, the supplier may provide the product's radiation exemption filing documentation instead of a Radiation Safety License;

(11) Consortium bids are not accepted for this project.
